Subject: Dear Sirs,

Dear Sirs,

I'm writing to you as a concerned citizen. The Microsoft trial has been going on too long. As a taxpayer, I'm pained to see the government used as tool of Microsoft's competitors. How can you honestly tell people that there is a software monopoly?

Will we run out of software? Can't people write their own software? Aren't there other operating systems to choose from that are free? Give us a break.

Please stop spending my money this way.

Regards,

Wayne Tynes
